R-THANKS

Some months ago a project was undertaken to build the Dream Home for the National Home Show. An ambitious commitment to say the least! This was being done in a rather unconventional way, the way we believe to cause a sustainable future to happen. The project was executed in a completely collaborative format, with high velocity and little time for traditional thinking. We set out to have everyone involved "WIN!" Although not without setbacks, challenges and "Wins" yet to be realized the R-House Dream House project got completed. Looking back at the past five months one thing stands out , PEOPLE! People connecting with people. While it is true that the house is surrounded by logos—logos of companies that became involved—it is the PEOPLE that got the job done!

It is with this in mind we acknowledge ALL those involved, all the people listed on this page.

- *we acknowledge you for all that you did that we know about and saw.*
- *we acknowledge you for all that you did that we will never know about and didn't have to see.*
- *we acknowledge you for all the other things in your life that you had to set aside or put on hold to make yourself available to the R-House Dream Home project.*
- *we acknowledge you for all the sacrifices you made including the sore muscles and lost sleep.*
- *and not to be forgotten, we acknowledge your family, friends and everyone close to you for their patience, understanding, support, encouragement and acceptance of the magnitude of the part you played! (Please make sure they get our thanks.)*

Whether you consider your part: insignificant or indispensable, a trivial task or Herculean project, a work of obligation or a selfless commitment... KNOW that this could not have been completed without YOU!

Lastly we are committed that we include everyone who played a part. If we have missed your name in this listing please include yourself in the accomplishment and acknowledgement and let us know of our oversight so that we may thank you personally.
